Description			
Reported by elfring on GitHub.			
I suggest to add the key word "const" to the type specifiers for parameters like the following.			
<pre>key_string (function "BlowfishSetKey") src/Crypto/Blowfish.h#L18 name (function "ReadLocalMachineRegistryString") src/Common/Registry.h#L15 xmlNode (function "XmlNextNode") src/Common/Xml.h#L13</pre>			
Would you like to apply the advices from an article to more places in your source files?
