

CipherShed - Task #15

Create Gnu Info page

08/13/2014 02:12 PM - Eugene Wang

Status:	New	Start date:	08/13/2014
Priority:	Normal	Due date:	
Assignee:	Eugene Wang	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	0.7.4	Spent time:	0.00 hour
Description			
The man page was child's play, relatively speaking. For the audit fix release, I'm planning on really sharpening my fingers and typing up a gnu info page. I plan on this info page on having in-depth information about the truecrypt format, possible attacks and how CipherShed (or the user) is supposed to mitigate them, and other such information.
