commit 8496a5fc95c9a1b6ebea8766aa3833b5dd7abec3

Author: Jason Pyeron <jpyeron@pdinc.us>

Date: Thu Jan 22 02:06:42 2015 -0500

Fixes <https://issues.ciphershed.org/issues/86> , by adding unique window titles to the system drive encryption

- added many strings entries for making window titles unique:
 - Common/Language.xml
 - Format/Tcformat.c
- Common/Dlgcode.c/h:
 - added the ability to customize the title of alert dialogs ErrorDirect & AskWarnYesNo
- Common/Password.c/h:
 - added the ability to customize the title of alert dialog CheckPasswordLength's PASSWORD_LENGTH_WARNING
- fixed a unit test bug for MessageBox, needed an extern C marker
- TODO: test all paths, the fix only addresses the main branch path through the wizard.

#2 - 08/21/2016 03:19 PM - Niklas Lemcke

- Status changed from New to Resolved
